DETAILED ACTION

Claim Objections Withdrawn

The objection to claims 1 and 3, outlined in the previous Office Action, has been overcome by applicant's amendment. The amendment corrects the claim text as appropriate.

103 Rejections Withdrawn

The various detailed rejections of claims 1-9 and 12 under 35 USC 103(a), outlined in the previous Office Action, have been overcome by applicant's amendment and declaration. The amendment cancels claim 12.

With respect to the remaining claims, and as had been previously discussed with applicant (Interview Summary 6/24/05), applicant's arguments and declaration have been carefully considered and are persuasive. The examiner is in agreement with applicant that the instant substituents and their specific positions on the ring of the salicylidene moiety and the effect this has on the optical purity of the product is neither taught nor suggested by the cited prior art. Applicant's superior results, as shown by the declaration, are an unexpected improvement.

Double Patenting Rejections Withdrawn

The rejection of claims 5 and 12 under the judicially created doctrine of obviousness-type double patenting, outlined in the previous Office Action, has been

Art Unit: 1621

overcome by applicant's submission of a terminal disclaimer and the cancellation of claim 12.

Allowable Subject Matter

Claims 1-9 are allowed. The following is an examiner's statement of reasons for allowance:

The closest prior art remains the prior art of record. As discussed above and in applicant's response and declaration, the cited prior art neither teaches nor suggests the instant compounds and methods. Nor would it have been obvious to one of ordinary skill in the art at the time of invention to modify the teachings of the prior art in order to arrive at those of the instant invention. There is no motivation to do so.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
